

Route4Me Now Available in 11 Languages

Route4Me's website and all the user interfaces on the website are now available in 10 additional languages:

Arabic
Chinese
Dutch (Netherlands)
French
German
Italian
Japanese
Portuguese
Russian
Spanish

- Users can change the default language associated with their account by going to Account Settings section.
- The mobile applications are also capable of running in internationalized modes, and will automatically change to one of the supported languages based on the default language of the driver
